The Problem

College athletic departments juggle dozens of rosters, scholarships, and NIL commitments — yet most still rely on spreadsheets and manual workflows.
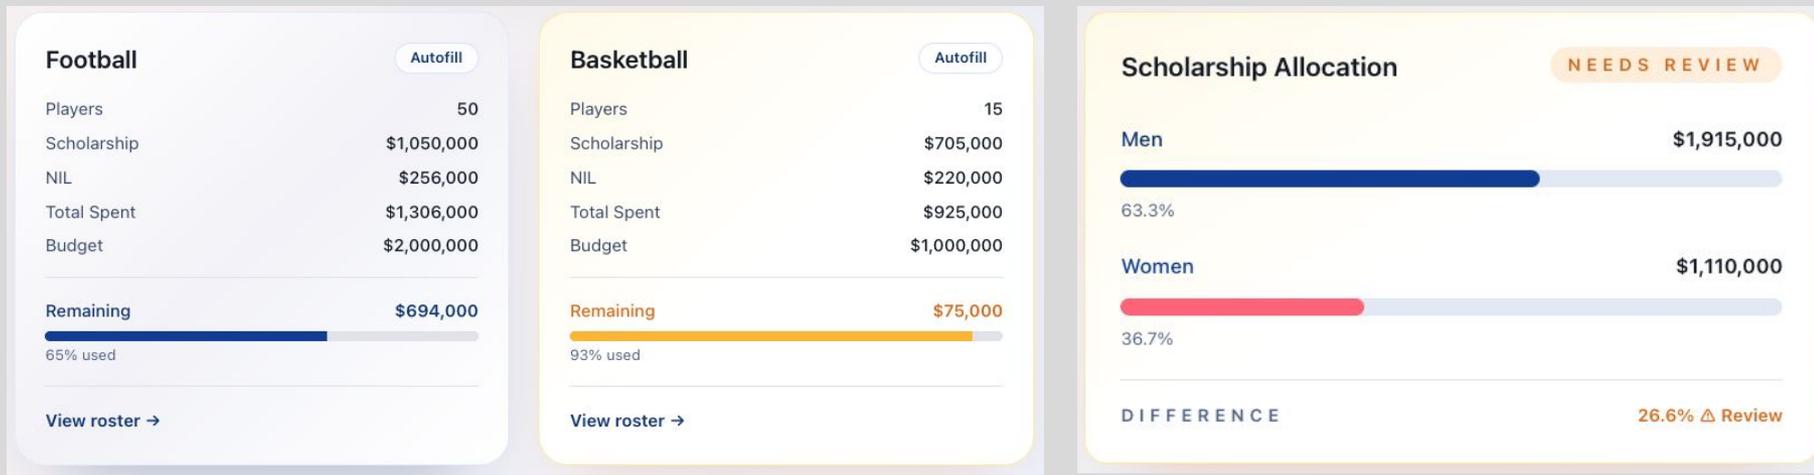

The result: compliance risk, wasted staff hours, and missed opportunities to optimize roster and budget decisions.

Common challenges:

- Roster turnover every semester
- Tight scholarship limits and unclear cap usage
- Scattered documents and compliance forms
- Time-consuming budgets and reviews

Athlytix simplifies roster, budget, and compliance management for college athletics
